Jennifer has always been an instructor who puts in effort in whatever she does. She would not hesitate to correct me and my fellow classmates whenever we are doing out Tai chi wrongly throughout our 3 ½ years under her. She has unconditional love teaching her students. I have personally seen the hard work that she puts in from the day I have been with her.

Jennifer laoshi is both skilful and passionate. She uses innovative learning methods like "holding the ball" in demonstrating a tai chi movement. I am most impressed with the systematic way in which she goes about conducting the class. Last but not least, she always encourages participants to join interest group activities and outings.
